Subject: RFP # 08-011, (RFP) Heavy-Duty Natural Gas Vehicle Demonstration

- **Replace the Project Objective Section on page 4 with the following:**

Project Objective

El Paso County is seeking a partner to implement a Heavy-Duty Natural Gas Vehicle Demonstration at the El Paso/Ciudad Juarez Border Crossing. To that end, the County has received funding totaling \$180,000 for the purpose of deploying at least three (3) heavy-duty hybrid vehicles (natural gas/diesel) operating within the maquiladora trade in the El Paso/Juarez region. Vehicles in this program can utilize either compressed natural gas (CNG) and/or liquefied natural gas (LNG) storage technology. In addition, the County is seeking to integrate these vehicles into planned or existing intelligent transportation programs to facilitate the tracking of vehicles and security of cargo. Implicit in this effort is the coordination of essential supporting infrastructure related to vehicle deployment, including, but not limited to, maintenance, fueling and technical support.

- **Replace the NGV/Marketing/Project Promotions Plan (15%) on page 6 with the following:**

NGV Marketing/Project Promotions Plan (15%)

Ability to present and implement a general plan for promoting the proliferation of heavy-duty natural gas vehicles in the cross-border transportation industry as well as for promoting and publicizing the project.

Ability to make additional contributions to the project which promote successful project implementation and overall effectiveness of the effort.
