ADDENDUM 2

To: All Interested Proposers

From: Linda Gonzalez, Inventory Bid Technician

Date: April 20, 2009

Subject: Bid # 09-030, Construction of Storm Water Improvements to the El Paso County Northeast Annex

The Purchasing Department received questions relating to the above referenced proposal; the response to the following question:

1. Who is inspecting the Storm water?

The City of El Paso will be inspecting this project since it is within the City of El Paso jurisdiction. The contractor is responsible for coordinating with the City for inspections just like any other project within the City of El Paso. However, the County, as the owner, along with the Project Engineer/Consultant will also be performing periodic inspections.

2. When were the plans actually produced/approved for this project?

The Project Consultant began preparing the project documents on April 21, 2008. The grading permit from the City of El Paso has been ready to be issued since December 18, 2008, pending contractor information. The contractor will not be responsible for any City of El Paso construction permit fees for this project.
