ADDENDUM 2

To: All Interested Proposers

From: Lucy Balderama, Inventory Bid Technician

Date: December 2, 2009

Subject: Bid # 09-088, Re-bid - Interior and Exterior Equipment for 4 Marked Patrol Vehicles

- **Bid opening has been extended to Wednesday, December 9, 2009 at 2:00 p.m.**

The Purchasing Department received questions relating to the above referenced proposal; the response to the following question:

1. The bid states "Must be P25 read." Do you want the radio capable of accepting the P25 software without any physical changes, except for programming the P25 software later? Or does P25 ready mean the software will be purchased and programmed in the radio when delivered?

"P25" the radio must be able to accept the necessary software for programming the radio at a later date. There should be no physical changes to the radio or the need to purchase additional hardware.

2. If the radios are to have the P25 software installed when delivered, then do you want P25 trunking software or P25 conventional air interface (CAI) software or both?

The radios must be P25 conventional air.

3. If you only want the radios to be P25 capable (programming the P25 software later) does that mean both P25 Phase I and P25 Phase II?

Yes radios should be capable of phase I and II with the ability to program them with the necessary software at a later date

4. Do you want the radio programmed to the county frequencies and operating profile when delivered?

Yes

5. Will this be awarded as an All-or-Nothing or Line-by-Line?

Yes all or nothing, but Commissioner's Court will decide.

6. Warranties are provided by the Manufacturer. Do we have to have a shop in El Paso?

Shop in El Paso is not necessary vendor must assure that serial numbers and model numbers are adhered to all equipment for warranty service at a later date if necessary. Warranty documentation must also accompany equipment when delivered.

7. Does the S.O. want halogen or LED takedown lights?

LED lights is what we want.
