2. As a result of the integration, will the County need to retain the PRIA XML?

XML format is acceptable for OPR data; however, we require a data sample for format approval. Transmission of images to be determined (ie ... byte arrays).

3. In preparation of e-recording/e-filing have the County contemplated web services to the existing system?

Yes

4. If yes, what web services have been contemplated and can you send us any information?

Draft of Web Service

1. **Method: CostOPR**
Parameters: none
Return Values: cost of OPR
2. **Method: CashierOPR**
Parameters: cashiered OPR data (ex: Pages and NF Pages)
Return Values: instrument number(s) and cost generated by system
3. **Method: StoreOPR**
Parameters: OPR index and images with burned instrument number
Return Values: confirmation of success.

5. If no, will it be necessary for us to assist in authoring these web services?

N/A

6. Does the County anticipate reviewing and cashiering all electronic recordings/e-filings through the current County system or through the e-recording system that is out for bid?

Through current County cashiering/deeds systems
