### **Reel #2 Index Poor Quality Image Reel #8 Provides Clear Image**

Name: Phillip Alford  
DOB: 06-18-1965  
Reel 2 Frame 1751

Track net provides this reel and frame but when you go to the reel to print the image it is poor quality and also has a number that is marked out on top of the image. When this occurs there is another reel that has the same person's information on it. In this person's birth certificate you could see that the first two numbers on the top of the page are 08. So you go to reel #8 and search for this person's birth certificate. The names will be in alphabetical order and the image in most cases is better.

### **Reel 210 Frame 1877**

Name: Anna Maria Ramirez  
DOB: 03-20-1920

When you look up this person on track net it provides an index card with the person's information. We pull it from the microfilm and print the image. Then it is typed onto a template with the typewriter and printed onto security paper with the copy machine.

### **1950-1963 Reel 115 Frame 275**

Name: Franklin Duarte  
DOB: 03-11-1955

When you look up this person's birth certificate on the reel the information is not legible. So we go to the state computer to get the state file number, go to our state reels and look up the birth certificate with the number provided from the state computer to provide a better copy. Some of the birth certificates from 1950 to 1963 are not in track net at all and we have to go to the state computer to make sure that they are registered with the state.

### **1903 to 1940 Book**

Name: Herminia Acosta

DOB: 06-19-1929

Birth record is not entered in track net at all and has to be looked up in the book, typed onto a template and copied onto security paper. Some of the names in the book are in track net and some are not.

### **Delayed Birth**

Name: Ramon Jose Garcia

DOB: 06-19-1929

Reel A004 Frame 0526

Delayed births are in track net but when the reel and frame comes up it will have a letter in front of the number. When this occurs we have five discs that contain these records. Four different birth certificates are on each page. The image has to be cropped, enlarged and printed onto security paper.
