Weekly Deeds Billing Data

Dropbox Service

Dear Valued Customer:

The County Clerk's Office offers a convenient and efficient manner in obtaining weekly deeds and billing data through Dropbox service.

This service allows for the delivery of weekly deeds data electronically. Using the Dropbox method of delivery allows for a faster turn-around in delivery of all requested material.

What is Dropbox and how does it work:

Dropbox is an online storage service that allows us to upload scanned images of all recorded property records. Information that is uploaded will be delivered to the email of your choice on Mondays of each week no later than 4:00p.m. MST.

How to enroll:

To enroll in this service, business entities will need to provide our office a point of contact and email address for your organization. Business entities will need to open a subsidiary account for a weekly fee of \$30.00.

If you choose to enroll in this service or have any additional questions, please contact our Official Public Records Department at (915) 546-2074 or by email at countyclerkdeeds@epcounty.com

Thank you,

El Paso County Clerk
Delia Briones
