2024 Formulary (List of Covered Drugs)

5 Tier Classic

**PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION
ABOUT THE DRUGS WE COVER IN THIS PLAN.**

Formulary ID Number: 24029 Version Number 9

This formulary was updated on 01/01/2024. For more recent information or other questions, please contact Aetna Medicare Member Services at **1-866-241-0357** or for **TTY users: 711**, 24 hours a day, 7 days a week, or visit **AetnaRetireePlans.com** and choose “Manage your prescription drugs.”

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this drug list (formulary) refers to “we,” “us,” or “our,” it means Aetna Medicare. When it refers to “plan” or “our plan,” it means Aetna.

This document includes a list of the drugs (formulary) for our plan which is current as of 01/01/2024. For an updated formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit.

Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2024, and from time to time during the year.

Mail-order pharmacy

For mail order, you can get prescription drugs shipped to your home through the network mail-order delivery program. Typically, mail-order drugs arrive within 10 days. You can call **1-800-594-9390 (TTY: 711)** 24 hours a day, 7 days a week, if you do not receive your mail-order drugs within this time frame. Members may have the option to sign up for automated mail-order delivery.

What is the Aetna Medicare formulary?

A formulary is a list of covered drugs selected by our plan in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. We will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at an Aetna Medicare network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

Can the formulary (drug list) change?

Most changes in drug coverage happen on January 1, but we may add or remove drugs on the drug list during the year, move them to different cost-sharing tiers, or add new restrictions. We must follow Medicare rules in making these changes.

Changes that can affect you this year: In the below cases, you will be affected by coverage changes during the year:

- **New generic drugs.** We may immediately remove a brand-name drug on our drug list if we are replacing it with a new generic drug that will appear on the same or lower cost-sharing tier and with the same or fewer restrictions. Also, when adding the new generic drug, we may decide to keep the brand-name drug on our drug list, but immediately move it to a different cost-sharing tier or add new restrictions. If you are currently taking that brand-name drug, we may not tell you in advance before we make that change, but we will later provide you with information about the specific change(s) we have made.
 - If we make such a change, you or your prescriber can ask us to make an exception and continue to cover the brand-name drug for you. The notice we provide you will also include information on how to request an exception, and you can find information in the section below titled “How do I request an exception to the Aetna Medicare formulary?”
- **Drugs removed from the market.** If the U.S. Food and Drug Administration (FDA) deems a drug on our formulary to be unsafe or the drug’s manufacturer removes the drug from the market, we may immediately remove the drug from our formulary and provide notice to members who take the drug.
- **Other changes.** We may make other changes that affect members currently taking a drug. For instance, we may add a new generic drug to replace a brand-name drug currently on the formulary, or add new restrictions to the brand-name drug or move it to a different cost-sharing tier or both. Or we may make changes based on new clinical guidelines. If we remove drugs from our formulary, or add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 30 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 30-day supply of the drug.

- If we make these other changes, you or your prescriber can ask us to make an exception and continue to cover the brand-name drug for you. The notice we provide you will also include information on how to request an exception, and you can find information in the section below titled “How do I request an exception to the Aetna Medicare formulary?”

Changes that will not affect you if you are currently taking the drug

Generally, if you are taking a drug on our 2024 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2024 coverage year except as described above. This means these drugs will remain available at the same cost-sharing and with no new restrictions for those members taking them for the remainder of the coverage year.

You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the Drug List for the new benefit year for any changes to drugs.

This formulary is current as of 01/01/2024. To get updated information about the drugs covered by our plan, please contact us. Our contact information appears on the front and back cover pages.

How do I use the formulary?

There are two ways to find your drug within the formulary:

Medical condition

The formulary begins on page 11. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, Cardiovascular. If you know what your drug is used for, look for the category name in the list that begins on page 11. Then look under the category name for your drug.

Alphabetical listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 111. The Index provides an alphabetical list of all of the drugs included in this document. Both brand-name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

Our plan covers both brand-name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand-name drug. Generally, generic drugs cost less than brand-name drugs.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior authorization:** Our plan requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from us before you fill your prescriptions. If you don't get approval, we may not cover the drug.
- **Quantity limits:** For certain drugs, our plan limits the amount of the drug that we will cover. For example, our plan provides 30 tablets per 30 days per prescription for atorvastatin . This may be in addition to a standard one-month or three-month supply.
- **Step therapy:** In some cases, our plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 11. You can also get more information about the restrictions applied to specific covered drugs by visiting our website. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask us to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, "How do I request an exception to the Aetna Medicare formulary?" on page 6 for information about how to request an exception.

What if my drug is not on the formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Member Services and ask if your drug is covered.

If you learn that our plan does not cover your drug, you have two options:

- You can ask Member Services for a list of similar drugs that are covered by our plan. When you receive the list, show it to your doctor and ask them to prescribe a similar drug that is covered by our plan.
- You can ask us to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the Aetna® Medicare formulary?

You can ask us to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to cover a formulary drug at a lower cost-sharing level if this drug is not on the specialty tier. If approved this would lower the amount you must pay for your drug.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, our plan limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, we will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower cost-sharing drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, *tiering* or utilization restriction exception. **When you request a formulary, tiering or utilization restriction exception you should submit a statement from your prescriber or physician supporting your request.**

Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 30-day supply. If your prescription is written for fewer days, we'll allow refills to provide up to a maximum 30 day supply of medication. After your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility and you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug while you pursue a formulary exception.

If you experience a change in your level of care (such as a move from a home to a long-term care setting), we may cover a one-time temporary supply from a network pharmacy for up to 31-days, unless you have a prescription for fewer days. You should use the plan's exception process if you wish to have continued coverage of the drug after the temporary supply is finished.

For more information

For more detailed information about your plan's prescription drug coverage, please review your Evidence of Coverage and other plan materials.

If you have questions about our plan, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

If you have general questions about Medicare prescription drug coverage, please call Medicare at **1-800-MEDICARE (1-800-633-4227)**, 24 hours a day/7 days a week. **TTY** users should call **1-877-486-2048**. Or visit <http://www.medicare.gov>.

Aetna® Medicare formulary

The formulary that begins on page 11 provides coverage information about the drugs covered by our plan. If you have trouble finding your drug in the list, turn to the Index that begins on page 111.

The first column of the chart lists the drug name. Brand-name drugs are capitalized (e.g., SYNTHROID) and generic drugs are listed in lower-case italics (e.g., *levothyroxine*).

The information in the Requirements/Limits column tells you if Aetna Medicare has any special requirements for coverage of your drug.

QL Quantity limits

For certain drugs, our plan limits the amount of the drug that we will cover. For example, our plan provides 30 tablets per 30 days per prescription of *atorvastatin*.

PA Prior authorization

Our plan requires you or your provider to get prior authorization for certain drugs. This means that you will need to get approval from us before you fill your prescriptions. If you don't get approval, we may not cover the drug.

ST Step therapy

In some cases, our plan requires you to first try certain drugs to treat your medical condition, before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.

LA Limited access

These prescriptions may be available only at certain pharmacies. *

MO Mail order

For certain kinds of drugs, you can use CVS Caremark® Mail Service Pharmacy. Generally, the drugs available through mail order are drugs that you take on a regular basis, for a chronic or long-term medical condition. Drugs available through mail-order are marked as “MO” in our Drug List. *

B/D Part B versus Part D

This prescription drug has a Part B versus Part D administrative prior authorization requirement. This drug may be covered under Medicare Part B or D depending upon the circumstances. Information may need to be submitted describing the use and setting of the drug to make the determination.

ACS Available from CVS Specialty Pharmacy

These drugs are for complex medical conditions and may require special handling and/or close monitoring. They are available through CVS Specialty Pharmacy Services or other specialty pharmacies in the network. You may not be able to get them at your local pharmacy. **

HRM High Risk Medication

According to medical experts, these drugs may cause more side effects if you are 65 years of age or older. If you are taking one of these drugs, ask your doctor if there are safer options available.

*For more Information, consult your Pharmacy Directory or call Aetna Member Services at **1-866-241-0357 (TTY: 711)**, 24 hours a day, 7 days a week, or visit **AetnaRetireePlans.com**

**Specialty pharmacies fill high-cost specialty drugs that require special handling. Although specialty pharmacies may deliver covered medicines through the mail, they are not considered “mail-order pharmacies.” Therefore, most specialty drugs are not available at the mail-order cost share.

Drug tier copay levels

This 2024 formulary is a listing of brand-name and generic drugs. The Aetna® Medicare 2024 formulary covers most drugs identified by Medicare as Part D drugs, and your copay may differ depending upon the tier at which the drug resides.

The copay tiers for covered prescription medications are listed below. Copay amounts and coinsurance percentages for each tier vary by Aetna Medicare plan. Look in the 2024 Prescription Drug Benefits Chart (The Prescription Drug Schedule of Cost-Sharing) that was included in your Evidence of Coverage (EOC) packet.

Copay tier	Type of drug
Tier 1	Preferred generic drugs
Tier 2	Generic drugs
Tier 3	Preferred brand drugs
Tier 4	Non-preferred drugs
Tier 5	Specialty drugs

Please Note: Our plan, in some instances, combines higher cost generic drugs on brand tiers. Refer to the drug list to determine the tier of coverage for each drug you take.

You may have drug coverage in the coverage gap stage

There are four “drug payment stages” of a Medicare Prescription Drug Plan. How much you pay for a Part D drug depends on which drug payment stage you are in. Your plan may include supplemental coverage for some drugs during the coverage gap stage of the plan. Look in the 2024 Prescription Drug Schedule of Cost-Sharing that was included in your EOC packet. The Prescription Drug Schedule of Cost-Sharing will tell you if your plan provides coverage in the gap, and how much you will pay for covered drugs. If you need assistance finding this information, call the number on the back of your ID card.

Members who get “Extra Help” are not required to fill prescriptions at preferred network pharmacies in order to get Low Income Subsidy (LIS) copays.

See Evidence of Coverage for a complete description of plan benefits, exclusions, limitations and conditions of coverage. Plan features and availability may vary by service area. Other Pharmacies are available in our network. Participating physicians, hospitals and other health care providers are independent contractors and are neither agents nor employees of Aetna. The availability of any particular provider cannot be guaranteed, and provider network composition is subject to change. The typical number of business days after the mail order pharmacy receives an order to receive your shipment is up to 10 days. Enrollees have the option to sign up for automated mail order delivery. If your mail order drugs do not arrive within the estimated time frame, please contact us toll-free at **1-866-241-0357**, 24 hours a day, 7 days a week. TTY users call 711.
