Subject: Bid# 06-119, Mobile Radios for the Sheriff's Office

The Purchasing Department received questions relating to the above referenced proposal. The Sheriff's Office has responded to the following questions:

The general requirements for the MA-COM Model M7100 Mobile Radios for the Sheriffs Office, Bid #06-119, could apply to a number of competitive VHF High Band mobile radios. Due to the vague description provided, can the requestor provide more specific information as to the required operational features?

1. Specifically, is the radio to be configured for analog conventional use only? If not, what specific system features and/or options do you, desire in addition to analog conventional use?

Yes, radio is for analog conventional programming. I will provide the successful bidder with the programming template however, for a general overview, the channel programming is divided into various modes.

Mode 1 = Sheriff's Office Repeater
Mode 2 = Sheriff's Office Talk-around
Mode 3 = Area Mutual Aid Channels
Mode 4 = Texas State Mutual Aid Channels 25 KHz.
Mode 5 = Texas State Mutual Aid Channels 12.5 KHz.

Units must be programmable for unit identification with PTT using GE Type 99 signaling.
