COLONIA HOUSING STANDARDS

TXCDBG CONTRACT #725003

EL PASO COUNTY SELF HELP CENTER

Colonia Housing Standards (CHS)

In June of 1996, the Department successfully obtained a waiver from HUD allowing the use of a new set of housing standards for Texas colonias. This new set of minimum standards, known as the "Colonia Housing Standards" or "CHS", was adopted by HUD and FHA, to insure loans in the colonias. The new standards provide as a basis, safe, sanitary and structurally sound housing needed to alleviate the existing health risks in the area.

Site and Neighborhood

The site and neighborhood shall not be subject to serious adverse environmental conditions such as:

- flooding
- open sewer hazards and septic tank back-ups
- accumulation of trash or refuse.

Access

The dwelling unit shall have direct access for the occupants:

- accessible from public roadways
- operable doors and windows with serviceable locks.

Structure and Materials

Structure and materials must be such that the dwelling is structurally sound and does not pose a threat to the health and safety of the occupants:

- structure shall be free from any serious defects such as leaning, buckling, or tripping hazards
- roof shall be firm and weather tight
- in the case of a manufactured home, the home must be permanently anchored to the site to prevent movement.

Lead-Based Paint

All structures shall be inspected for defective paint surfaces in units constructed prior to 1978 which are occupied by families with children under seven (7) years of age. Identified defective painted surfaces in such structures built before 1978 shall have abatement measures applied when:

- the painted surfaces have cracking, peeling, scaling, chipping, or loose paint
- when a family occupying the unit includes a child under the age of seven (7) years with confirmed concentration of lead in whole blood of 25 ug/dl (micrograms of lead per deciliter of whole blood) or higher
- each unit shall meet the requirements of Section 302 of the Lead-Based Paint Poisoning Prevention Act, 42 U.S.C. 4822.

Water Supply

- the water supply shall be free from contamination
- the water heater shall not be located in a bathroom, bedroom, or clothes closet
- potable water shall be supplied to all kitchens and bathrooms.

Interior Air Quality

The interior air quality shall be free of pollutants in the air:

- free from carbon monoxide, sewer gas, and fuel gas

- bathrooms shall have at least one operable window or other adequate exhaust ventilation
 - all windows shall have screens to cover each window opening.
-

Electrical

Each room shall have natural or artificial lighting to permit normal indoor activities:

living and sleeping rooms shall have at least one window

-
- a ceiling or wall type light fixture shall be present and working in the bathroom and kitchen;
 - at least two (2) electrical outlets shall be present in the living area, kitchen, and bedrooms
 - all rehabilitation or new construction will comply with the National Electric Code which includes the installation of Ground Fault Interruption Circuits (GFIC) in the kitchen and bathroom.

Thermal Environment

The dwelling unit shall have and be capable of maintaining a healthy thermal environment:

- the unit will be energy efficient
- the unit will have operable windows to provide cross ventilation
- room heaters that burn natural gas, heating oil, kerosene, or other flammable fuels shall be vented to the exterior of the unit.

Sanitary Facilities

The dwelling unit shall contain its own sanitary facilities which will be in proper working condition, which can be used in privacy, and which are adequate for personal cleanliness and the disposal of human waste:

- a sink, bathtub and/or shower, and flush toilet shall be a room separate from the other parts of the unit
- the unit's sanitary facilities shall be connected to an approved sewer or septic system.

Security

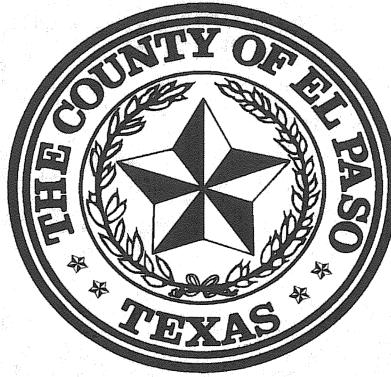

The dwelling unit shall be secure:

- all exterior doors and windows shall be secured with operable locks
- at a minimum, there shall be one UL approved, battery operated or hardwired smoke detector on each level of the unit.

Food Preparation

The dwelling unit shall contain space and equipment in the proper operating condition to prepare and serve food in a sanitary manner:

- each unit shall contain a range and a sink
- each kitchen sink shall have running water
- the sink shall drain into an approved public or private sewer or septic system.

TXCDBG CONTRACT #725003

**2006-2008 El Paso County Self Help Center
TXCDP-725003**

Program Guidelines

I. PROGRAM OVERALL

El Paso County, Texas, has received Texas Department of Housing and Community Affairs(TDHCA) Texas Community Development Program (TXCDP) funds to provide housing rehabilitation assistance to low to moderate income (LMI) applicants of El Paso who reside in Agua Dulce Units 1-5, El Paso Hills Units 1-4, Lakeway Estate Units 1-3, Horizon View Estates Units 17, 20,21 & 22 and Horizon Units 90, 91 & 94.

II. PROGRAM OBJECTIVES

The following objectives are provided for the implementation and administration of the housing rehabilitation program.

- A.** The primary objective of the El Paso County Housing Rehabilitation Program is to provide decent, safe, and sanitary housing for low to moderate income residents by the rehabilitation of substandard, single family, owner-occupied dwelling units in compliance with the County of El Paso, and Existing Colonia Housing Quality Standards (HQS).
- The County Self Help Center Program Coordinator, the Housing Coordinator and the Construction Specialist, shall administer the rehabilitation, repair and re-construction components of the program, to take applications, verify eligibility, perform preliminary inspections for scope of work, coordinate and review work write-ups and cost and estimates, prepare bidding documents, conduct oversight liaison between the selection committee and homeowner, and conduct all interim inspections. County Planning and Development Director must approve all program components.
 - The housing program will be operated in accordance with all the applicable rules and regulations of El Paso County and the Texas Department of Housing and Community Affairs (TDHCA).

III. APPLICANT ELIGIBILITY –REQUIREMENTS

The following are requirements, which must be met for an applicant to be determined eligible. Eligibility does not assure funding, since it is expected that there will be more eligible applicants than can be served with available funds.

A. Income Eligibility

The income limits to be utilized for the Housing Rehabilitation Program are the income levels established yearly by HUD. TXCDP funds shall not be available to any applicants who have substantial financial resources available.

Proof of income shall include: Income tax returns and W-2 forms for current and one previous year and/or affidavits. Applicants will also provide savings and checking account information.

B Proof of Ownership

The applicant must be an individual or family who owns and occupies a single-family residential

Ownership can be documented as follows:

- Land Sales Contract
- Title to mobile unit. Or bill of sale.

C. Length of Ownership

The unit to be rehabilitated must have been owned and occupied by the applicant and/or family members at least **two years** prior to the date of the application. Contract and or utility bills will demonstrate ownership. In the case of utility hookups, beneficiaries may have owned and occupied the property for less than two years.

D. Property Taxes

Applicant must furnish evidence that all property taxes assessed on the property proposed for rehabilitation have been paid prior to the award of the forgivable loan, or the property owner qualified for and received a tax deferral as allowed under Section 33.06 of the Texas Property Tax Code.

E. Insurance

For the purposes of New Home Construction the Owner must furnish evidence that the residence is insured with fire and casualty insurance. This insurance must be maintained for the 5-year duration of the forgivable loan. Applicants to Small Home Repair and Utility Hookup programs will be counseled regarding homeowners' insurance.

IV. PROPERTY ELIGIBILITY

A. Unit Characteristics

- Only single-family owner-occupied units will be eligible for rehabilitation assistance. A family is defined as a householder and one or more other persons living in same household who are member of his/her family. An individual living alone may also apply.
- Mobile homes will only be considered as eligible units if they are anchored in accordance with the manufacturer's installation instruction or the generic standards approved and promulgated by the Texas Department of Housing Community Affairs, Manufactured Housing Division. No more than \$15,000 in hard and soft construction

costs may be used to rehabilitate a mobile home and it must meet HQS upon completion.

- Mobile home rehabilitation, which exceeds \$15,000, must be substantially reconstructed, but only upon advice of OCI. Substantial reconstruction may consist of replacement housing with either (a) a manufactured home or (b) a stick built home, which shall meet only the current needs of the family or individual. Where an adequate used mobile home can be obtained, such shall be considered

B. Location

Units must be inside the target area.

C. Inspection

A preliminary inspection shall be conducted using the *Colonia Housing Standards Inspection Report* to determine the condition of the unit and to prepare a list of the code deficiencies. This will also help determine if the unit can be repaired within the limits of the loan, and whether the unit requires more rehabilitation than what is possible through the provisions of this TXCDP program. The Construction Specialist will perform interim inspections. The Self Help Program Coordinator, The Construction Specialist and TDHCA OCI Border Liaison shall conduct the final inspections.

V. **CONDITION REQUIREMENTS**

- Upon completion of the rehabilitation, units must comply with county building codes and minimally with existing Colonia Housing Quality Standards.
- Units must comply with the El Paso County plumbing and electrical codes at the completion of the work.
- **Suitable for Rehabilitation** is defined as an LMI-occupied unit which can be brought up to Colonia Housing Quality Standards with a TXDCP investment not to exceed \$15,000.
- **Unsuitable for Rehabilitation** is defined as a residential unit which has major structural conditions that were either inadequate original construction or has failing foundation, floor, wall, ceiling, roof, and exterior systems. System failures or violations in electrical, plumbing, doors, windows, and other building components may also be taken into consideration. (The Self-Help Center must document specific conditions and determine that more than 50 percent of the house must be demolished in order to comply with Colonia HQS codes.)
- **Suitable for Repair is defined as a residential unit with most immediate security needs small repairs such as: window replacement, doors,**

VI. **TYPE OF IMPROVEMENTS**

- Improvements needed to meet county building codes, county plumbing and electrical codes HUD Section 8 Existing Quality Standards.
- Improvements must be physically attached to the property and be permanent in nature

(shed or garage located separately from the house are not eligible.) This does not mean that attached carports or utility rooms are automatically eligible. Eligibility of attached structures will be determined by TXCDP where safety or the structural integrity of the house is involved.

- Improvements may include lead – based paint abatement, asbestos abatement, handicapped accessibility for special needs, energy efficiency or ventilation item such as ceiling fans, window screens, screen doors, and window blinds.
 - Cook stoves, refrigerators, and other necessary appliances are eligible items, but will only be considered when they are not present or the repair would not be cost effective. They will be dealt with on a case-by-case basis.
 - Required building permits shall be obtained by the contractor at his/her expense and may be included as part of the bid costs, when applicable.
-

VII. SUPPLEMENTAL REHAB IMPROVEMENTS

- All debris, abandoned vehicles, and derelict buildings must be removed from the property prior to the start of construction. The owners shall remove whatever they are physically able to remove. Are responsible for clean up.
- All electrical components including service, a licensed electrical inspector must inspect meter, wiring, and fixtures, even if no electrical work is specified. Unsafe components must be replaced. All exposed wiring switches and light bulbs in living areas must be encased.
- All homes must be equipped with a UL approved smoke detector installed in conformance with the one and two family dwelling code.
- Homes inhabited by handicapped or elderly persons must be analyzed as to the special physical needs of such persons. Improvements such as widened doorways, ramps, level entry and doorways, and grab bars in bath areas must be installed, if appropriate.

VIII. MAXIMUM CEILING OF HOUSING ASSISTANCE

El Paso County has instituted a maximum ceiling for rehabilitation for housing units. The cost of rehabilitating a single housing unit may not exceed \$15,000 in TXCDP funds. \$48,000.00 for Re-Construction and \$3,200.00

XI. SELECTION COMMITTEE

- A. The El Paso Self Help Center Selection Committee will be composed of SHC staff and two El Paso County colonia residents. The Selection committee will assist in the review applications process and recommend selected applicants by:

XII. SELECTION OF APPLICANTS

Program eligibility shall be determined utilizing the following:

- First Come First Serve Basis
- The income of the household
- The condition of housing

-
- Family size to bedroom ratio
 - Special Needs: handicapped, elderly.
 - Single parent households

-The program shall ensure that every individual is treated with fairness and consistency.

A. Priorities for Evaluating Applicants

The prequalifying addresses housing type and conditions before other considerations, such as:

-
- homes lacking indoor plumbing must be addressed first;
 - homes occupied by persons with disabilities which require alterations for accessibility;

. Selection and Approval of Applicants

- Program staff will take pre-applications by interview at the Center on a rolling basis. The applications for clients who meet the eligibility criteria will receive follow-up home visits to conduct the home inspection and further advise the client of documentation that will be required. Applicants who clearly do not qualify will be informed immediately that they do not meet baseline eligibility criteria at the pre-application stage. Non-eligible applicants maybe informed of other SHC programs and/or referred to other housing assistance agencies.
- All eligible applications will be reviewed and approved by the review committee using the outlined evaluation criteria.

Property Eligibility

Properties, which shall be excluded from rehab, shall include homes, which are deteriorated to the point where rehabilitation is not cost effective. Excluded homes can be set aside and considered for substantial reconstruction.

The following rules apply for Rehabilitation:

- Water connection. Plumbing must be connected to an approved source of water and provided with an approved waste disposal/effluent system.;
- Non-construction costs for permits, design surveys and inspections are considered to be soft cost;
- Home rehabilitations cannot exceed more than \$15,000

A. Relocation

Relocation funds have not been appropriated under this contract.

XV. SELECTION OF APPLICANTS, WORK WRITE-UPS AND CONTRACTING PROCESS

-
- A. Upon verification of the applicant's eligibility, each application will then rated according to a priority scoring system as hereinafter established. The Self Help Center Selection Committee will be responsible for scoring the applications.
 - B. After ranking the applications, the Construction Specialist shall conduct a property inspection of the applicants to determine the specific items to be repaired or replace to bring the units up to Colonia Quality Standards. This list or work item will constitute the work write-up for those units. After completing the work write-ups for each of the applicants, the Construction Specialist shall then estimate the cost of the proposed work (labor and materials) for each unit.
 - C. Contractor will be selected by County Bid/Proposal guidelines.
-
- D. Selected Contractor will submit work-write ups and scope of work.
 - E. Once approval of the work write-ups has been received, the contractor's staff will proceed.
 - F. Contractor shall have applicants and Planning and Community Development Director sign the work write-up inspection and the scope of work.
