ADDENDUM 1

To: All Interested Proposers

From: Linda Gonzalez, Bid Clerk/Buyer

Date: April 16, 2007

Subject: RFP # 07-040, Software Upgrade of Nortel Networks Option 81C PBX and Call Pilot Voice Mail Messaging Systems

The Purchasing Department received questions relating to the above referenced proposal.

1. I need the OPI file from the PBX. This file tells us what is currently on the system that needs to be upgraded. Or if you can send the information so that we can dial into your system to get that information.

The OPI file will be on our web-site www.epcounty.com, under [Quick links](#) click on [Bids, RFO's, etc...](#), locate [RFP #07-040](#) click on [Addendum 2](#)

2. What is the desired hold time for the new DC Battery Plant should there be a loss of AC input power to the rectifier?

4 hours

3. Would you prefer 10 year or 20 year sealed maintenance free batteries?

10 year

4. To provide the County of El Paso Government with the best value solution, will you permit vendors to provided options that are not identified with the RFP specifications

providing they are separate from the vendor RFP response and appropriately identified as optional?

Yes

5. The County of El Paso has 608 vacant Terminal Numbers (TN's) today. Of that count, how many should be grandfathered as digital Station Ports and how many Analog Station Ports?

576 digital ports and 32 analog ports

6. In Section J, the County of El Paso is requesting one paper copy and one copy on diskette/CD of the written documentation and user guides. Will you accept two CD copies of the user's guides instead?

One set must be paper and one disk

7. Would the county be open to a messaging platform other than Call Pilot specifically and specially if it saves the county the necessity to upgrade the current version of the Option 81 and potentially saves thousands over what the Call Pilot will cost?

No. The unified desktop messaging platform for El Paso County voice equipment is Nortel.
