ADDENDUM 1

To: All Interested Proposers
From: Lucy Balderama, Inventory Bid Technician
Date: January 27, 2015
Subject: RFI# 15-004, Microsoft Windows Domain Migration

This addendum has been issued to notify vendors of the following questions and changes:

- ❖ **The RFI opening date has been extended to Thursday, February 5, 2015 at 2:00 p.m.**

Active Directory (AD):

1. How many forests and domain in your AD environment?

Response: We currently have one domain and one forest.

2. How many Domain Controllers do you have?

Response: We currently have six domain controllers.

3. What are the Domain and Forest functional levels set at currently?

Response: We currently have a 2003 functional level.

4. How many logical sites are defined, and do all sites contain Domain Controllers?

Response: Three logical sites are defined and each with one physical domain controllers at each site (total of 3 DC's). Two (2) DC's are virtual servers. The sixth DC will be decommissioned this year.

5. Do you use Windows based DHCP in your environment?

Response: Yes, it is a mixed environment as we also have Cisco giving out DHCP at some location.

6. Describe your replication topology: ex: hub and spoke, full-mesh, partial mesh.

Response: Hub and Spoke setup with a primary domain controller and the rest are replicators.

7. Are you using Active directory integrated DNS?

Response: Yes.

8. Is Active Directory federated with any external systems or applications?

Response: No it is not federated.

Exchange:

9. How many Mailboxes are ACTIVE in your exchange environment?

Response: We have 3,300 mailboxes.

10. How many Mailbox servers are in your exchange environment?

Response: We currently have 2 mailbox servers.

11. Have you deployed Exchange High-availability and/or Site-resilience?

Response: Yes by setting up two server which act as a client access server as well as a hub transport server. We also have two servers as Cluster Continuous Replication (CCR).

12. How many Databases in the environment?

Response: There are six databases.

13. Are you leveraging Database Availability Groups (DAG)? If so, how many?

Response: No.

14. How many Client Access Servers are deployed?

Response: We have 2 Client Access Servers.

15. How Many Hub Transport Servers are deployed?

Response: Two Hub Transport Servers are deployed.

16. Are any exchange servers configured as multi-role?

Response: Currently the hub transport and client access servers are located on the same servers.
