What if the inmate is released? Will I receive a refund for the remaining funds on the account?

Contact the GTL® AdvancePay® Service Department. We require a written request to be mailed or faxed by the owner of the account for a refund. GTL® strives to process refunds within 30 days (and after verifying initial payment method), and typically within 60 days, at the latest. **Accounts that are inactive for more than 90 days are subject to closure, and any funds remaining in the account will be forfeited and therefore not eligible for refund*.** An account is considered inactive if no calls have been accepted by the telephone number and no payments have been made to the account for more than 90 consecutive days. **A processing fee may be deducted from the remaining account balance when the account is closed and a refund is issued*.**

What types of credit cards are accepted?

We accept Visa and MasterCard (including debit and check cards) to set up a prepaid account.

After I have used my \$25.00 or \$50.00 prepaid amount, can I cancel the prepaid account and have collect calls charged through my local telephone company?

Once telephone numbers are set up as an AdvancePay® account, customers are not able to switch to another form of billing.

What if the inmate hangs up before I finish making the credit card payment to set up the prepaid account?

If the inmate hangs up after the credit card verification process has begun, in most cases the process will not terminate. For further verification, the customer may contact the GTL® AdvancePay® Service Department.

Are the collect call rates more expensive when my telephone number is set up on a prepaid account?

No, AdvancePay® calls are charged the same call rates as traditional collect calls. However with AdvancePay® customers are provided the ability to monitor and manage their own accounts through the automation that AdvancePay® provides.

Helpful tips to avoid calls from inmates from being disconnected:

Family members and friends of inmates are given the option of setting up prepaid calling accounts using credit cards, checks, money orders or Western Union. Calls that may otherwise be blocked are now completed through GTL's AdvancePay® program.

How Does It Work?

AdvancePay® allows inmates to call your telephone number without the restrictions of standard billing. When an inmate attempts to dial an un-billable number, the inmate is placed on hold and AdvancePay® will provide the option to the called party to set up a prepaid account. After the prepaid account is established, collect calls to the telephone number may be placed, up to the prepaid amount in the account. After the account money is used, the system will prompt the user to add funds to their AdvancePay® account.

Benefits:

Customers can rest assured that collect call charges will not reach an excessive amount.

When funds on a prepaid account are low, an automated system will contact customers with the option to add more money to their AdvancePay® account.

All transactions occur in real-time. When an inmate places a call to a number set up as prepaid, funds are deducted from the AdvancePay® account as soon as the call is complete.
