INHERENT LIMITATIONS

This financial review was designed to provide reasonable assurance that the internal control structure is adequate to safeguard the County's assets from loss, theft, or misuse. The County's internal control structure is designed to provide reasonable, but not absolute assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of implementing the controls should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires the use of estimates and judgment by management. Because of the inherent limitations in any system of internal controls, errors, or irregularities may occur and not be detected.

CONCLUSION

JP7 met all objectives of this audit and continues to operate with effective internal controls.
