Investment Policy Purpose

The purpose of this investment policy (“Policy”) is to comply with the terms of the *Texas Government Code (GC), Chapter 2256* (“Public Fund Investment Act – *PFIA*”) § 2256.005(a), which requires El Paso County (“County”) to adopt a written investment policy describing the policies and procedures for the investment of funds under the County’s control.

Policy Statement

It is the policy of the County to invest idle cash of all funds under the control and custody of the County Auditor in a manner maintaining the safety of principal and liquidity of the invested funds while providing a reasonable rate of return.

Authority to Invest Funds

Texas Local Government Code (LGC) §116.112, authorizes Commissioners Court to invest county funds in accordance with *PFIA §2256.003(a)*.

Delegation of Authority

According to *PFIA §2256.005(f)*, the Commissioners Court, by order expressly designates the County Auditor as investment officer to be responsible for the investment of the County’s funds consistent with this investment policy.

As a matter of information, the El Paso County voters abolished the office of County Treasurer in 1986. *LGC §83.007* provides that in a county for which the office of county treasurer has been abolished, a reference to the county treasurer in the LGC or other state statutes means the person who performs the powers or duties of the county treasurer in that county. Since Commissioners Court directed the County Auditor to perform all statutorily mandated treasury functions after the office of County Treasurer was abolished, state law provisions referring to county treasurer duties now are read as applying to the County Auditor.

Investment transactions including the receipt, disbursement, or transfer of funds between depository accounts including the system of wiring of funds are prescribed by the County Auditor pursuant to *LGC sections 112.002(a), 112.006(a)(b), 115.003, 116.112(a), and 156.003*. Disbursement of funds may only be transacted from the County’s depository accounts as prescribed and authorized by the County Auditor.

The County Auditor establishes written procedures for the operation of the investment program consistent with this investment policy. Authority granted to the County Auditor to invest the County’s funds is effective until rescinded by the Commissioners Court or termination of the County Auditor’s employment with the County. County Auditor personnel authorized to initiate investment related activities are the County Auditor Treasury division staff members, except clerks. The Treasury audit manager and audit accountants have authority to secondarily approve investment transactions initiated by authorized personnel only after first being reviewed and approved by any one of the following: County Auditor, First Assistant County Auditor, or Director of Financial Operations.

Appropriate County Auditor staff will review proposed investments to validate funds availability, term, and maturity date to ensure meeting future obligations of the respective funds prior to actual disbursement of funds. No person may effectuate an investment transaction except as provided under the terms of this policy and the internal procedures prescribed by the County Auditor. The County Auditor is responsible for approval of all investment transactions undertaken with the County's public funds and has established a system of internal controls to regulate the activities of associated subordinates.

Scope

This investment policy applies to all funds of the County under the control and custody of the County Auditor, which the Commissioners Court has authority to invest, unless expressly prohibited by law or is in contravention of any depository contract between the County and our depository bank. These funds include but are not necessarily limited to the:

General Fund

Special Revenue Fund

Debt Service Fund

Capital Projects Fund

Enterprise Fund

Internal Service Fund

Agency Fund

Any other funds held in the custody of the County Auditor as provided by law.

Investment Advisor

In accordance with *PFIA §2256.003(b)* Commissioners Court may contract with an investment management firm registered under the Investment Advisors Act of 1940 (15 U.S.C. Section 80b-1 et seq.) or with the State Securities Board to provide for the investment and management of its public funds or other funds under its control. A contract made under authority of this subsection may not be for a term longer than two years. A renewal or extension of the contract must be made by Commissioners Court order.

Prudence and Ethical Standards

The standard of prudence to be applied by the investment officer is the "prudent investor" rule, as stated in *PFIA §2256.006(a)*, "Investments shall be made with the judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person's own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived."

Investment of funds held in custody by the County Auditor shall be governed by the following investment objectives, in order of priority:

1. Preservation and safety of principal;
2. Liquidity; and
3. Yield.

As stated in the PFIA §2256.006(b), in determining whether an investment officer has exercised prudence with respect to an investment decision, the determination shall be made taking into consideration:

1. The investment of all funds, or funds under the entity's control, over which the officer had responsibility rather than a consideration as to the prudence of a single investment; and
2. Whether the investment decision was consistent with the written investment policy of the entity.

The investment officer, acting in accordance with written procedures and exercising due diligence, shall not be held personally responsible for a specific investment's credit risks or market price changes, provided that these deviations are reported immediately, and that appropriate action is taken to control adverse developments.

Quality and Capability of Investment Management and *PFIA* Training

El Paso County ensures the quality and capability of the County's investment personnel by requiring the investment officer and personnel to attend at least one training session or a series of online training sessions from an independent source approved by the Commissioners Court containing 10 or more hours of training related to the duties under the *PFIA* within 12 months of assuming the duties and attend an investment training session not less than once in a two-year period that begins on the first day of the County's fiscal year and consists of two consecutive fiscal years after that date, and receive not less than 10 hours of instruction relating to investment responsibilities from an independent source approved by Commissioners Court, in accordance with *PFIA* §2256.008(a). Training under *PFIA* §2256.008(c) must include education in investment controls, security risks, strategy risks, market risks, diversification of investment portfolio, and compliance with the *PFIA*.

It is the County's policy to provide training required by *PFIA* §2256.008 and periodic educational training relating to the investment officer's duties and compliance with this investment policy. The investment officer and all staff involved in the investment process shall attend such courses or seminars offered by an independent source approved by Commissioners Court.

Authorized sources in obtaining training are:

The Texas Higher Education Coordinating Board
Government Finance Officers Association
Government Finance Officers Association of Texas
Government Treasurers Organization of Texas
Texas Association of Counties
University of North Texas
County Treasurers Association of Texas
A Texas Institute of Higher Education
Texas State Board of Public Accountancy
TexPool Academy
Hilltop Securities
North Texas Council of Governments

Disclosure of Personal Business

An investment officer for the County of El Paso who has a personal business relationship with a business organization offering to engage in an investment transaction with the County shall file a statement disclosing that personal business interest with the Texas Ethics Commission and Commissioners Court, in accordance with *PFIA §2256.005(i)*. An investment officer has a personal business relationship with a business if:

1. The investment officer owns ten percent or more of the voting stock or shares of the business organization or owns \$5,000 or more of the fair market value of the business organization.
2. Funds received by the investment officer from the business organization exceed ten percent of the investment officer's gross income for the previous year; or,
3. The investment officer has acquired from the business organization during the previous year investments with a book value of \$2,500 or more for the personal account of the investment officer.

An investment officer who is related or has a personal business relationship within the second degree of affinity or consanguinity, as determined under *GC § 573*, to an individual seeking to sell an investment to the County shall file a statement disclosing that relationship with the Texas Ethics Commission and Commissioners Court.

Investment Objectives

The investment objectives for all funds in the custody of the County Auditor are to:

1. Ensure the **preservation and safety of principal** by investing in highly-rated, domestic securities with active secondary markets.
2. **Mitigate all unnecessary investment risks**, by prioritizing safety above increased investment income.
3. **Ensure liquidity so that sufficient funds are available** to meet immediate short-term needs for the daily operations of the fund.
4. **Attain the best yield or rate of return** through the prudent and legal investments of County funds throughout budgetary and economic cycles. The County's risk constraints and the cash flow characteristics of the investment portfolio should be taken into consideration for each investment.
5. Provide **diversification** within each of the funds whenever possible to avoid an overconcentration of funds in a single investment type.
6. **Regulate cash flow** by determining the amount of money to be invested and the time to maturity based on the anticipated cash flow needs through regular forecasting.

Investment Strategies

Investment Strategy for all Funds

The main investment objective for all funds is to ensure the preservation and safety of principal. Other objectives include ensuring sufficient funds are available to meet cash flow needs; investing in eligible securities that will yield the highest rate of return possible while maintaining the safety of principal; and diversification of the investments within each fund, subject to the restraints of the fund to minimize market volatility. Suitable investments to accomplish these objectives are high quality, marketable, short to medium term that complement each other in a ladder maturity structure.

General, Special, Enterprise and Internal Service Funds

All investments approved by Commissioners Court and that meet the projected cash flow needs of the individual accounts are suitable for these funds.

Debt Service Fund

All investments approved by Commissioners Court, which have a maximum stated maturity of less than 365 days or will mature on or before the next debt service payment date, whichever is shorter for the debt service account, are suitable for this fund.

Capital Projects Fund

The suitable investments for this fund are high quality; marketable, short-term investments whose maturities match the projected draw down schedule for each project, if available. When no draw down schedule is available or the project has exceeded the draw down schedule, all investments must be in the shortest-term possible to maintain the highest level of liquidity. Another objective for this fund is to comply with arbitrage yield restrictions.

Agency Fund

The suitable investments for this fund are high quality, marketable, short-term investments whose maturities match the projected cash flow needs of each fund. Another objective for this fund is to invest the funds as required by the agency.

Safety of Principal

Safety of principal is the primary objective of the County's investment policy. To achieve this objective the County seeks to mitigate its exposure to credit and interest rate risks.

- A. Credit Risk – the County minimizes credit risk, the risk that an issuer or other counterparty to an investment will not fulfill its obligations, by:
 - (1) Limiting investments to those allowed by the PFIA and approved by Commissioners Court.
 - (2) Pre-qualifying the financial institutions and broker/dealers with which the County will do business.
 - (3) Diversifying the investment portfolio to minimize potential losses on individual issuers.

- (4) All security investments are executed on a **delivery-versus-payment (DVP)** basis and held by the County's custodial agent, in the County's name and evidenced by receipts. The only exception is investments made into an investment pool(s) approved by Commissioners Court.
- B. Interest Rate Risk – the risk that changes in interest rates will adversely affect the County's investments is minimized by:
 - (1) Structuring the investment portfolio so investment maturities match cash flow needs for ongoing operations and avoiding the need to liquidate investments prior to maturity.
 - (2) Diversifying the maturities and purchase dates to minimize the impact of market movements over time.

Eligible Investments

As provided in the *PFIA*, except those specifically not authorized in *GC § 2256.009(b)*, the following investments may be made with funds under the County Auditor's control:

- A. Obligations of, or guaranteed by, governmental entities, (*PFIA §2256.009*)
- B. Certificates of Deposit and Share Certificates, guaranteed by FDIC (Federal Deposit Insurance Corporation) or its successor; NCUSIF (National Credit Union Share Insurance Fund) or its successor; or those fully collateralized in accordance with *GC 2257 (PFIA §2256.010)*
- C. Repurchase Agreements, with approved master repurchase agreement, not to exceed 90 days (*PFIA §2256.011*)
- D. Securities Lending Program, must meet the terms and conditions provided in *PFIA (PFIA §2256.0115)*
- E. Banker's Acceptance, not to exceed 180 days (*PFIA §2256.012*)
- F. Commercial Paper, not to exceed 270 days and rated not less than A-1 or P-1 or equivalent (*PFIA §2256.013*)
- G. Mutual Funds must comply with the Securities Exchange Commission Rule 2a-7(*PFIA §2256.014*)
- H. Guaranteed Investment Contracts if approved by Commissioners Court (*PFIA §2256.015*)
- I. Local Government Investment pools as approved by Commissioners Court (*PFIA §2256.016*)

The County Auditor may invest the County's idle funds without prior Commissioners Court approval in:
(see appendix E for types of securities)

- A. United States Treasury bills, bonds, and notes.
- B. Authorized Local Government Investment Pools (LGIP) in compliance with the *PFLA*, the County's Investment policy and maintain an AAA or AAA-m or an equivalent rating from at least one nationally recognized rating service.
- C. Securities from the following United States Agencies that are backed by the full faith and credit of the United States of America:
 - Government National Mortgage Association (GNMA) (Ginnie Mae)
 - Small Business Administration (SBA)
 - Export-Import Bank (EXIM BANK)
- D. Securities from the following United States Instrumentalities that are backed by the full faith and credit of the instrumentality and have an "implied" backing of the United States of America:
 - Federal National Mortgage Association (FNMA) (Fannie Mae)
 - Federal Home Loan Bank (FHLB)
 - Federal Home Loan Mortgage Corporation (FHLMC) (Freddie Mac)
 - Federal Farm Credit Bank (FFCB)
 - Tennessee Valley Authority (TVA)
- E. Repurchase agreements through the County's depository bank with an approved master repurchase agreement not to exceed four days.
- F. State and local government bonds issued by the State of Texas or a local government entity within the State of Texas with a bond rating of AA or better. This type of investment is restricted to the general fund only and the total for this type of investment may not exceed ten percent of the fund balance for the general fund and the maximum maturity of an individual bond is not to exceed three years.
- G. Certificate of deposit or share certificate issued by a depository institution that has its main office or a branch office in Texas, is guaranteed or insured by the FDIC or its successor or the NCUSIF or its successor, and/or fully secured with an FHLB letter of credit, or collateral eligible under the *PFLA* (*GC §2257*).
- H. Certificates of deposit when the funds are invested through a broker or depository institution that has its main office or a branch office in Texas, is selected from the approved list, and arranges for the deposit of the funds in one or more federally insured depository institutions, wherever located, for the account of County and the full amount of the principal and accrued interest of each of the certificates of deposit is insured by the United States or an Instrumentality of the United States. Where the County appoints the County depository or safekeeping bank, or a clearing broker-dealer registered with the SEC and operating pursuant to SEC Rule 15c3-3 (17 C. F. R. Section 240.15c3-3) as custodian for the County with respect to the certificates of deposit issued for the account of the County. This program is commonly known as Certificate of Deposit Account Registry Service (CDARS).

Pursuant to *PFIA §2256.017*, except as provided by *GC §2270*, the County is not required to liquidate investments that were authorized investments at the time of purchase.

Ineligible Investments

The following investments are **not** authorized investments for the County of El Paso:

- A. Obligations whose payment represents the coupon payments on the outstanding principal balance of the underlying mortgage-backed security collateral and pay no principal (“IO’s”).
- B. Obligations whose payment represents the principal stream of cash flow from the underlying mortgage-backed security collateral and bears no interest (PO’s).
- C. Collateralized mortgage obligations that have a stated final maturity date of greater than ten years; and
- D. Collateralized mortgage obligations the interest rate of which is determined by an index that adjusts opposite to the changes in a market index (“Inverse Floaters”).

Applications for approval as Broker/Dealer

In accordance with the *PFIA §2256.005(k)*, a written copy of this investment policy shall be presented to the qualified representative of the business organization offering to engage in an investment transaction with the County.

To qualify for approval, a broker/dealer must submit a written application that complies with the following requirements:

1. Completes and signs the County’s certification letter.
2. Completes the broker/dealer questionnaire that provides information regarding creditworthiness, experience and reputation.
3. Provides references by public fund investment officers.
4. Provides latest audited financial statements.
5. Provides evidence of capital adequacy.
6. Acknowledges receipt, thorough review and understanding of the County’s investment policy.
7. Acknowledges the business organization has implemented reasonable procedures and controls to preclude investment transactions conducted between the County and the organization that are not authorized by the County’s investment policy, except to the extent that this authorization is dependent on an analysis of the makeup of the County’s entire portfolio or requires an interpretation of subjective investment standards. “Business organization” means an investment pool or investment management firm under contract with the County.
8. Any Broker/Dealer seeking to do business with the County must provide only eligible investments as described in this investment policy as authorized for the County to invest in.

Qualifications for approval as Broker/Dealer

Applications received from broker/dealer/business organizations are reviewed for completeness and conformity with the County's investment policy by the Treasury division audit accountant senior, audit manager, and either director of financial operations, or county auditor first assistant. Acceptable applications are recommended to the County Auditor for review and approval. The County Auditor reviews the application and if approved, an item is placed on the Commissioners Court agenda for the court to approve or disapprove adding the broker/dealer to the County's authorized list. To be recommended for approval, a broker/dealer/business organization must meet and demonstrate the following criteria:

- A. Institutional investment experience.
- B. Good references from public fund investment officers.
- C. Adequate capitalization per the *Capital Adequacy Guidelines for Government Securities Dealers* published by the Board of Governors of the Federal Reserve System.
- D. Registered with the Financial Industry Regulatory Authority (FINRA) and provide the FINRA Reports for both the broker and the firm.
- E. If a seller of municipal bonds, should comply with the Municipal Securities Rulemaking Board (MSRB) rules and regulations.
- F. Valid registration with the Texas State Securities Commission.
- G. Acknowledgment of thorough review and understanding of this investment policy.
- H. Acknowledgment of the implementation of reasonable procedures and controls to preclude investment transactions conducted between the County and the organization that are not authorized by the County's investment policy, except to the extent that this authorization is dependent on an analysis of the makeup of the County's entire portfolio or requires an interpretation of subjective investment standards. "Business organization" means an investment pool or investment management firm under contract with the County.
- I. Be one or more of the following types of institutions or groups:
 - a) The County's depository bank(s);
 - b) Any other financial institution that has its main office or a branch office in Texas and is insured by FDIC or NCUSIF and meets the County's collateralization requirements.
 - c) Any Primary Dealer affiliated with the Federal Reserve Bank of New York is preferred.
 - d) Any regional dealer affiliated with the Federal Reserve Bank or its branches (see Appendix B).

Approval of Broker/Dealers

In accordance with the *PFIA* §2256.025, Commissioners Court shall, at least annually, review, revise, and adopt a list of qualified brokers that are authorized to engage in investment transactions with the County. Commissioners Court bases its review on the recommendations of the County Auditor and may approve any number of qualified broker/dealers. The County and the County Auditor may only purchase securities from approved broker/dealers. The County Auditor may remove any broker/dealer from the approved list for failing to comply with the County's investment policy and notice of this removal will be given to Commissioners Court. If the County has contracted with a Registered Investment Advisor for investment recommendations for County funds; the advisor shall be responsible for performing due diligence on and maintaining a list of broker/dealers with which it shall transact business on behalf of the County. The advisor shall annually present a list of its authorized broker/dealers to the County for review and likewise shall execute the aforementioned written instrument stating that the advisor has reviewed the County's investment policy and has implemented reasonable procedures and controls in an effort to preclude imprudent investment activities with the County. The advisor shall obtain and document competitive bids and offers on all transactions and present these to the County as part of its standard trade documentation.

Annual Review of Approved Broker/Dealers

Every odd-numbered year, the County Auditor shall solicit applications from broker/dealers for authorization to conduct investment transactions with the County to ensure compliance with new statutory requirements, adapt to changes in market conditions, and serve County investment needs. All approved broker/dealer applicants must submit a new certification letter, broker/dealer questionnaire, and audited financial statements within 60 days of the date the County's revised investment policy is sent to them. The Treasury division Audit Accountant Senior, Audit Manager, and either the Director of Financial Operations or County Auditor First Assistant, and the County Auditor then review the applications, after which, a list of qualified broker/dealers is submitted to Commissioners Court for approval.

Every even-numbered year, the Treasury Audit Manager, either the First Assistant or the Director of Financial Operations, and the County Auditor will conduct a review of the existing broker/dealer list to verify continued eligibility, performance, and adherence to County investment policies and *PFIA* standards. In accordance with the *PFIA*, this list will then be submitted to Commissioners Court for approval.

Removal from Approved List

The County Auditor may review and reevaluate the broker/dealers on the approved list at any time when the County Auditor discovers good cause. The County Auditor may immediately remove any broker/dealer from the approved list for the following reasons:

- A. Placing the County's funds at risk.
- B. Failure to maintain the requirements of the *PFIA* or this investment policy.
- C. Offering to sell investments other than eligible investments described in this policy to the County; or
- D. Consistently causing an administrative burden by inaccurate documentation, attempting to submit oral bids, or late verification of trade.

Diversification of the Investment Portfolio

Diversifying the Investment Portfolio by Type

The County Auditor minimizes the risk of loss of principal in the investment portfolio by diversifying investments by type and maturity. The County Auditor maintains diversity in the types of eligible investments by limiting the maximum percentage that may be invested in each type of eligible investment to the percentages listed as follows:

<u>Type of Investment</u>	<u>Percentage Limit</u>
Obligations of the U. S. Treasury Bills, Bonds, and Notes,	100%
Obligations of U. S. Agencies and Instrumentalities,	100%
Certificates of Deposit issued by a depository institution that has its main office or a branch in Texas and is guaranteed or insured by FDIC or its successor or NCUSIF or its successor, and collateralized for any amount over the insured amount with U.S. Securities at 102% or a letter of credit from FHLB,	100%
Certificates of Deposit purchased through a shared deposit program. All individual CDs purchased through a shared deposit program will have a total principal and interest of less than the FDIC insurance cap. Limited to 20 percent of the fund balance of the general fund as reported in the prior year’s Annual Comprehensive Financial Report.....	20%
State or local government bonds issued by the State of Texas or a local government within the State of Texas, limited to ten percent of the fund balance of the general fund as reported in the prior year’s Annual Comprehensive Financial Report.....	10%
Local Government Investment Pools (LGIP) if the following conditions are met:	
<ol style="list-style-type: none"> 1. The LGIP is organized under the <i>Interlocal Cooperation Act</i>, as amended. 2. Is authorized by Commissioners Court. 3. The LGIP complies with all requirements of the <i>PFIA</i>. The LGIP must be continuously rated no lower than AAA or AAA-m or at an equivalent rating by at least one nationally recognized rating service PFIA §2256.019 and have a weighted average maturity no greater than 60 days. 	
The County may invest.....	100%
Repurchase agreements if the following conditions are met:	
<ol style="list-style-type: none"> 1. Is authorized by Commissioners Court. 2. A master repurchase agreement is signed by both parties. 3. Accounts and funds have been designated by the County Auditor. 4. The funds are in excess of the compensating balances required to the accounts. 5. The repurchase agreement is collateralized at least 102% of the market value of the funds invested. 	
The County may invest	100%

Diversifying the Investment Portfolio by Maturity

The County Auditor monitors the maturity of all investments in the portfolio to minimize the risk of loss from interest rate fluctuations and to ensure that the maturities do not exceed the projected cash flow requirements within the portfolio. The funds held by the County are invested on an individual fund basis and not as a pooled fund group. The maximum allowable stated maturity of any individual investment in the investment portfolio is as follows:

<u>Type of Investment</u>	<u>Maturity Limit</u>
Obligations of the U. S. Treasury Bills, Bonds, and Notes,.....	10 years
Obligations of U. S. Agencies and Instrumentalities,	10 years
State or local government bonds issued by the State of Texas or a local government within the State of Texas	3 years
Local government investment pools (LGIP) if the following conditions are met:	
<ol style="list-style-type: none"> 1. The LGIP is organized under the Interlocal Cooperation Act, as amended. 2. The LGIP is authorized by Commissioners Court. 3. The LGIP complies with all requirements of the PFIA 	
The County may invest funds for (with funds rolling over daily)	1 day
Repurchase agreement.....	4 days
Certificates of Deposit.....	2 years

Diversification Restrictions by Fund

General Fund

The general fund has no other restrictions except by type and maturity as described above.

Special Revenue Fund

The special revenue fund is restricted to a maximum maturity of one year or less, due to the short-term nature of these funds. Investments in the special revenue fund are restricted to maturities that meet the projected cash flow needs of the fund.

Debt Service Fund

Investments in the debt service fund are restricted to a maximum maturity of one year or less, with investments scheduled to mature on or before the debt service payment dates.

Capital Projects Fund

Capital projects fund investments may be restricted to shorter maturities due to cash flow requirements. Additional restrictions may be placed on the capital projects fund due to arbitrage restrictions.

Enterprise Fund

Enterprise fund investments are restricted to maturities that meet the projected cash flow needs of the fund.

Internal Service Fund

The internal service fund investments are restricted to short term maturities of six months or less, due to the unpredictability of the cash flow needs for this fund.

Agency Fund

Agency fund investments are restricted as to the type and maturity by various legal statutes and the unpredictability of the cash flows. The most suitable investments for the agency funds are those that mature in three months or less.

Competitive Selection of Investment Instruments

The County requires competitive bidding for all individual security purchases except those transactions with MMMFs, LGIPs, treasuries purchased through Treasury Direct Accounts, and government securities purchased at issue through an approved broker/dealer at auction price. At **least three broker/dealers** must be contacted in all other securities transactions. If a specific maturity date is required, either for cash flow purposes or for conformance to maturity guidelines, bids are requested for instruments, which meet that maturity requirement or are as close to but do not exceed the maturity date. Bids are requested from broker/dealers for various options regarding terms and instruments. The County accepts the bid which provides the highest rate of return within the maturity required, is submitted within the deadline specified on the bid sheet and within the parameters of this policy. **All bids must be in writing.** Records are kept of the bids received, time the bid is received, and the bid(s) accepted.

Safekeeping and Collateralization

The County shall contract with a bank, or banks, for the safekeeping of securities either owned by the County as a part of its investment portfolio or as part of its depository agreements. All collateral securing bank and savings bank deposits must be held in the County's name by a third-party banking institution acceptable to and under contract with the County, or by the Federal Reserve Bank.

Evidence of perfected ownership shall be provided through monthly safekeeping statements which shall be promptly reconciled to internal investment records.

Consistent with the requirements of State law, the County requires all bank and savings bank deposits to be federally insured, fully secured through an FHLB standby letter of credit (LOC) or collateralized with eligible securities. Financial institutions serving as County's Depositories will be required to sign a Depository Agreement with the County and the County's safekeeping agent. The safekeeping portion of the Agreement shall define the County's rights to the collateral in case of default, bankruptcy, or closing and shall establish a perfected security interest in compliance with Federal and State regulations, including:

- A. The Agreement must be in writing;

- B. The Agreement has to be executed by the Depository and the County contemporaneously with the acquisition of the asset;
- C. The Agreement must be approved by the Board of Directors or the loan committee of the Depository and a copy of the meeting minutes must be delivered to the County;
- D. The Agreement must be part of the Depository's "official record" continuously since its execution.

Required Collateral Levels

A. Certificates of Deposit

The market value of the principal portion of collateral pledged for certificates of deposit must at all times be equal to or greater than the par value of the certificates of deposit plus accrued interest, less the applicable level of FDIC insurance.

B. Repurchase Agreements

A repurchase agreement's security value shall be the par value plus accrued interest, and the security's market value must be maintained as a minimum of 102% of the principal value of the repurchase agreement.

Reporting Requirements

The Treasury division audit manager, audit accountant senior, or audit accountant generates daily schedules that show the current cash balances in the County's depository accounts, as well as any items maturing, anticipated payments, investments going out that have not been posted by Treasury, check-runs, and any other adjustments to be made by the Treasury division. In addition, a summarization of the portfolio's activity is presented daily to the County Auditor detailing amounts maturing by date. In addition, the audit accountant senior produces a monthly listing of the portfolio showing the detail of each investment. For example, the listing shows the yield at which it was purchased, the cost of each item bought and the type of investment.

On a monthly basis, a summarized investment portfolio is presented to the Commissioners Court in the County Auditor's interim financial report showing total outstanding investments by type.

Not less than quarterly, the investment officer shall prepare and submit to the Commissioners Court a written report of investment transactions for all funds for the preceding reporting period within a reasonable time after the end of the period. The report must:

- A. Describe in detail the investment position of the County on the date of the report.
- B. Be prepared by the investment officers of the County.
- C. Be signed by all investment officers and employees of the County involved in the investment process (*PFA §2256.023*).
- D. Contain a summary statement prepared in compliance with GAAP, of each pooled fund group that states the:

- a) Beginning market value for the reporting period.
 - b) Additions and changes to the market value during the period.
 - c) Ending market value for the period; and
 - d) Fully accrued interest for the reporting period.
- E. State the book value and market value of each separately invested asset at the end of the reporting period by the type of asset and fund type invested and the cash balances for each fund.
- F. State the maturity date of each separately invested asset that has a maturity date.
- G. State the account, fund or pooled group fund in the County for which each individual investment was acquired; and
- H. State the compliance of the investment portfolio of the County as it relates to:
- a) The investment strategy expressed in the County's investment policy; and relevant provisions of *PFLA §2256*.
- I. Benchmark the performance of the portfolio against the average rate of return on U.S. Treasury Bills at a maturity level comparable to the portfolio's weighted average maturity in days.

As part of the annual County audit the County's independent auditor shall perform a compliance audit of management controls and adherence to the County's established investment policies, and the results reported to Commissioners Court.

Notification of Investment Changes

It shall be the duty of investment officer to place before the Commissioners Court any significant changes to current investment methods and procedures prior to their implementation. On an annual basis, the investment policy will be reviewed, revised as needed, and formally presented to the Commissioners Court for familiarization, approval, and to advise the court of any changes in the investment process.

Marking to Market

Market value of all securities in the portfolio will be calculated on a quarterly basis and disclosed to the Commissioners Court quarterly in a written report. Pricing information will come from Bloomberg, Intercontinental Exchange, Inc. (ICE) or any other reputable and independent source deemed reliable by the County Auditor.

Downgrade Provision for Investment Ratings

Pursuant to *PFLA §2256.021*, in the event any investment in the portfolio, after purchase is downgraded to a level below the minimum required rating, the County independently or in concert with the Investment Advisor(s) shall take all prudent measures that are consistent with its Investment Policy to

liquidate an investment that does not have the minimum rating.

Selection of County Depository

For a financial institution to be the County's depository, it must first go through the County's banking services procurement process, which includes a formal request for proposals for a two- year or four-year contract term. Either contract term may be renewed for an additional two years. The County may negotiate, or renegotiate, contract terms in compliance with *LGC §116* as part of the County's banking services procurement process.

Certification Letter,
Broker/Dealer Questionnaire

Texas Public Funds Investment Act
Certification by Business Organization

This certification is executed on behalf of the County of El Paso, Texas (County) and _____ (the Business Organization) in connection with investment transactions conducted between the County and the Business Organization.

The undersigned Qualified Representative of the Business Organization hereby certifies on behalf of the Business Organization that:

1. Public Fund Investment Act § 2256.005 (k): nothing in this Certification relieves El Paso County of the responsibility for monitoring the investments made by El Paso County to determine that they comply with the El Paso County Investment Policy,
2. The undersigned is a Qualified Representative of the Business Organization offering to enter an investment transaction with the County as such terms are used in the Public Funds Investment Act, Chapter 2256, Texas Government Code,
3. The Qualified Representative of the Business Organization has received and reviewed the investment policy of the County, and
4. For an investment pool or investment management firm contracted with the County. The Qualified Representative of the Business Organization has implemented reasonable procedures and controls to preclude investment transactions conducted between the Business Organization and the County that are not authorized by the County's investment policy except to the extent that this authorization is dependent on an analysis of the makeup of the County's entire portfolio or requires an interpretation of subjective investment standards.

Appendix D

List of Primary Government Securities Dealers

<https://www.newyorkfed.org/markets/primarydealers.html>

Appendix E
Types of Securities

United States Treasury Securities

U.S. Treasury – Bill (T-Bill) A treasury bill is an obligation of the United States Government to pay the bearer a fixed sum on a specific date. T-Bills are sold at a discount from their par (face) value. The return on investment is the difference between the discounted purchase price and the selling price or face value at maturity. T-Bills are short-term securities with fixed maturity of one year or less. T-Bills are backed by the full faith and credit of the United States Government.

U.S. Treasury – Notes and Bonds (T-Notes, T-Bonds) T-Notes and T-Bonds are coupon securities paying interest every six months. T-Notes have a fixed maturity of not less than one year or more than ten years. T-Bonds are securities with maturities of more than ten years. T-Notes and T-Bonds are sold at a premium or discount depending on the coupon rate of the security. Interest is accrued for those T-Bonds purchased between interest periods. T-Notes and T-Bonds are backed by the full faith and credit of the United States Government.

United States Government Agency and Instrumentality Securities

Agencies

Government National Mortgage Association (GNMA) (Ginnie Mae) GNMA exists to provide a secondary market for real estate mortgages and therefore spur private housing in the economy. The most attractive securities offered by the GNMA and available to government investors are “fully modified pass-through mortgages”. The mortgages are pooled into mortgage-backed pools by GNMA. The pools are structured to provide good diversification and value. The securities have stated maturities equal to the underlying mortgages, which range from 12 to 40 years. The GNMA guarantee of timely principal and interest payments is backed by the full faith and credit of the United States Government.

Export-Import Bank (EXIMBANK) The Export-Import Bank was founded in 1934 and operates under an authority granting broad powers to finance and facilitate exports of U.S. products by extending loans, guarantees and export credit insurance. All contractual liabilities of EXIMBANK constitute general obligations of the United States Government and are backed by its full faith and credit. This is a program designed for economic development purposes and not for investment purposes. Such loans are not liquid and are bought simply as a buy-and-hold proposition.

Small Business Administration (SBA) Credited in 1953, the Small Business Administration, provided loans to small business through the issuance of Debentures under the Small Business Investment Company Program, Regular Business Loan Program, Single Loan Sales, SBA Loan Pools, and Certified Development Company Program. Although these debentures are backed by the full faith and credit of the United States Government, they are long-term investments and lack liquidity.

Tennessee Valley Authority (TVA), Established by an act of congress in 1933 to develop the resources of the Tennessee Valley region. TVA bonds are not obligations of, nor are they guaranteed by, the United States.

Maritime Administration Merchant Marine Obligations are issued and guaranteed in accordance with the provisions of the merchant Marine Act of 1936 as amended by the Ship Financing Act of 1972. The obligations are guaranteed by the full faith and credit of the United States Government. These obligations are long term investments and lack marketability.

Instrumentalities

Federal National Mortgage Association (FNMA) (Fannie Mae) Fannie Mae was incorporated in 1938 as a corporation wholly owned by the government. In 1968, congress enacted legislation to privatize Fannie Mae. By 1970, Fannie Mae completed the transition and officially became a private corporation. The obligations of Fannie Mae are not guaranteed by United States Government and do not constitute a debt or obligation of the United States government or any agency thereof. Fannie Mae was placed under Federal government conservatorship in September 2008 due to a significant decline in the underlying market value of the mortgage loans it held and guaranteed. As a result, the U.S. government effectively owns and operates Fannie Mae.

Federal Farm Credit Bank (FFCB) Federal Farm Credit Bank bonds are not backed by the full faith and credit of the United States government. The bonds are secured by collateralized obligations of the banks operating under federal charter with governmental supervision.

Federal Home Loan bank (FHLB) system was organized in 1932, under the Federal Home Loan Bank Act and restructured under the Financial Institutions Reform Recovery, and Enforcement Act of 1989 (FIRREA). Twelve District Banks comprise the system and are distributed geographically around the country. The obligations of the system are not backed by the full faith and credit of the United States Government. However, the banks are required to maintain secured advances, guaranteed mortgages, U. S. Government securities or cash in an account at least equal in size to its outstanding obligations.

Federal Home Loan Mortgage Corporation (FHLMC) also known as Freddie Mac is a government-sponsored enterprise chartered under Title III of the Emergency Home Finance Act of 1970. Freddie Mac purchases residential mortgages from individual lenders, groups the mortgages onto pools and subsequently sells mortgage-backed pass-through securities backed by such mortgages. Freddie Mac Guarantees timely payment of principal and interest. These securities are not backed by the full faith and credit of the United States Government. Freddie Mac was placed under Federal government conservatorship in September 2008 due to a significant decline in the underlying market value of the mortgage loans it held and guaranteed. As a result, the U.S. government effectively owns and operates Freddie Mac.
