Economic Development Department Operations Update

*Department operating remotely but at full capacity in wake of
Covid-19*

March 17, 2020, EL PASO, TX: The Economic Development Department has implemented some operational changes in order to help slow the spread of COVID-19.

- In accordance with guidance and recommendations from the Federal Government, Centers for Disease Control, and the order of the local Public Health Authority, our office has reduced its in-office presence and suspended face-to-face transactions.
- We will continue to offer full services to the community while working in a remote capacity. We can be reached by email at economicdevelopment@epcounty.com or by phone at (571) 458-6296.
- Our office is working hard to provide local businesses impacted by Covid-19 information about available resources. We are also inviting them to participate in a survey that asks how their business has been affected. Find out more at www.elpasobusinesshelp.com.

[The El Paso County Economic Development Department](#) administers programs which seek to enhance the business operating climate and promote heritage tourism throughout El Paso County. These efforts serve to enhance the quality of life for all residents.
