## **El Paso Small Business Emergency Relief Fund to Accept Additional Applications**

*In response to the business community, LiffFund will reopen grant  
application window*

**April 03, 2020, EL PASO, TX:** LiffFund will reopen the application process for grants from the El Paso Small Business Emergency Relief Program on April 06, 2020 at 7:30am.

The County has listened to our community's concerns regarding the application process for our grant program administered by LiffFund, and we are taking action.

We have worked with LiffFund to reopen the small business grant application on Monday morning, April 6, 2020 at 7:30 a.m. M.T., to allow more small business owners the opportunity to apply for funds. Please note that the application process will be closed as soon as capacity is reached.

The County, City, and LiffFund apologize for any inconvenience this may have caused. Our mutual interest is to support small business owners during this trying time.

We know that grants are a favorable resource, but we also want to remind the community that LiffFund is offering small business loans up to \$25,000 at 0% interest with a four month deferment, thanks to a partnership with the City and the County. Business owners are able to apply and receive both a loan and a grant. We encourage small business owners to take advantage of these resources.

[The El Paso County Economic Development Department](#) administers programs which seek to enhance the business operating climate and promote heritage tourism throughout El Paso County. These efforts serve to enhance the quality of life for all residents.
