- and -

0317C or 0310C

Duration: 4.0 day(s) / 32.0 training hour(s)

Nortel Communication Server 1000 Telephony Manager Release 3.1 Telecom Billing System Issue 5 Test

Product Code: 0318A

Version: 5 (Note: Training and test version numbers are different from software and equipment release numbers)

Language: English (US)

Type: Online Assessment Test

Description

This is an assessment test associated with the course and is not available without course completion. This test assesses your understanding of the course materials and is not a certification exam. Information on Certification Exams is available to you on the Nortel Training and Certification web site.

You may access this assessment test following the end of your course by logging in to you "My Training" page and following the link "Take Your Test". Once completed your grade and any associated Certificate of Completion will also be available to you through your "My Training" Page. If by chance you do not pass the assessment test you may request to have the assessment test re-issued for a re-take. Re-takes are available to you only once if you are not successful with the second attempt no other re-takes are available.

Duration: 2.0 training hour(s)

* Plus any applicable shipping and tax.
