Answers Below

Based on the submitted questions, I believe that the suppliers are under the impression that the installation of new video recording systems is requested. This is not correct.

I recommend answering the questions as follows:

As outlined on page 4 of the RFP, only maintenance services for five existing video recording systems are requested.

The RFP does not specify the purchase and/or installation of any new equipment.

Sections 1.1 through 1.9, on pages 4 and 5, specify the services and qualifications required for this service agreement.

On page 6 of the RFP is a list of the equipment that shall be maintained under this service agreement.
