ADDENDUM1

To: All Interested Proposers
From: Lucy Balderama, Inventory Bid Technician
Date: June 22, 2009
Subject: RFP #09-052, Re-Bid Transmission Services for the Sheriff's Department

The Purchasing Department received a question relating to the above referenced proposal; the response to the following question:

1. Are transmissions coming to the shop in or out of the vehicle?

On the vehicle.

2. Do we bid worst-case scenario, with all mechanical and electrical components needing replacement?

There are times the hard parts need to be placed & also the electric solenoid. Most of the repairs are installing a clutch kit and Torque converter.

3. Can you clarify what transmission is in the vehicle as some can have two different styles of transmission which can create a big price difference?

The bid item has the following information: Year, vehicle, size of engine, Vin # (this # describes the engine size and with this No. the vendor will know the type of transmission.)
