ADDENDUM 1

To: All Interested Proposers
From: Araceli Hernandez, Inventory Bid Technician
Date: May 15, 2014
Subject: Bid# 14-019, As-Needed Cabling Services for the County Facilities

This addendum has been issued to notify the vendors of the following questions:

1. On page 31 in the evaluation matrix the bid suggests 10 points for offering a "manufacturer 3 year warranty". Is that suggesting the cabling *installer* needs to agree to a three year workmanship warranty?

Response: Yes, the cabling installer needs to agree to a 3 year workmanship warranty.

2. On page 22 under system warranty the bid suggests the County is looking for a 25 year "system" warranty. Is that suggesting the warranty that would come with a Panduit Certified cabling plant?

Response: Yes, system warranty must be equal to or better than Panduit certified cabling.

3. Just as a point of confirmation, on page 11, the bid suggest the County wants only Panduit Certified Installers to work in their environment. On page 25 #11, the bid says that personnel must be either Panduit *or* Siemon certified. Is the County open to both manufacturers equally or is there a preference?

Response: Yes, equal to Panduit or Siemon certified.
