---

The Purchasing Department has received the following questions:

1. Engine specification was stated as Ford 6.8L V10 at 385 HP Diesel.
   Would that mean 6.7L V8 Diesel at 300HP?

   **RESPONSE: Yes the 6.7L V8 Diesel rated at 300 HP is the required minimum
   specifications. The vehicle has to have a diesel engine.**

2. Ford engine availability is only two a V10 Gasoline or V8 Diesel?

   RESPONSE: The required engine is the V8 Diesel.

3. Is the 15k forklift, standard mast or telescopic?

   RESPONSE: Telescopic.

4. Is there additional specifications on the street sweeper, 15k forklift, and utility tractor that
   the end user would prefer them be equipped with?

   RESPONSE: No, the specs as written are the minimum requirements.

5. Would the county consider to replace the required engine minimum 276 cubic inch 80 HP @ 2500 RPM WTR Cooled Tier-3 with a 276 cubic inch 74 HP @ 2500 RPM WTR Cooled Tier-4?

   RESPONSE: Yes the Tier-4 engine would be better.

6. Would the county consider to replace the required hand controlled F/both forward & reverse variable speed of 2-12 MPH low range/0-22 MPH high range with a Dual Hydrostatic Foot Control for more responsive control of travel speed and keeps both hands on steering wheel?

   RESPONSE: Yes.

7. Would the county consider to replace the required tires Radial 235/758R15 Front/Rear with a Spare Tire with Radial ST225/75R15 Load Range D?

   RESPONSE: Yes.

8. Would the county consider to replace the required cab Ammeeter with a Volt meter that provides information if battery is charging?

   RESPONSE: Yes.
